

Thank You

Questions? Discussion?

Final Summary

Paper: "Rethinking Financial Distress in Public Healthcare"

Grade: C+ / B- (70-75/100)

Classification: Adequate empirical work with significant limitations

Best Use: Teaching material for discussing model validity and research design

Key Lesson: Honest identification of problems is valuable, but excellence requires theoretical development, rigorous design, and complete follow-through on promises

Presentation prepared for: Advanced Corporate Finance

Based on: Comprehensive critical assessment framework
